

Name: _____ Date: _____
Chemistry

Worksheet

Writing Chemical Formulas

DIRECTIONS: Write proper formula for the following compounds.

- _____ 1. potassium sulfate
- _____ 2. aluminum hydroxide
- _____ 3. ferric oxide
- _____ 4. lithium thiocyanate
- _____ 5. ammonium phosphate
- _____ 6. carbonic acid
- _____ 7. calcium acetate
- _____ 8. silver nitrate
- _____ 9. copper(II) sulfate
- _____ 10. tin(IV) fluoride
- _____ 11. sulfuric acid
- _____ 12. sulfur trioxide
- _____ 13. barium chloride
- _____ 14. sodium hydrogen carbonate
- _____ 15. magnesium bromide
- _____ 16. carbon dioxide
- _____ 17. sodium silicate
- _____ 18. hydrogen cyanide
- _____ 19. sodium hypochlorite
- _____ 20. calcium oxalate
